

EXP NO1: Flight Reservation System

Aim:

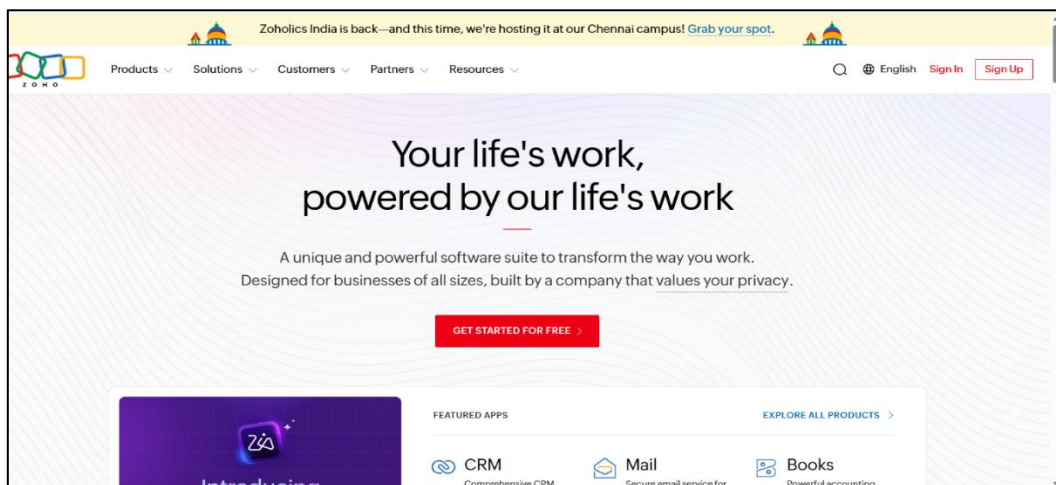

To develop a cloud-based Flight Reservation System using Zoho Creator to demonstrate SaaS.

Steps:

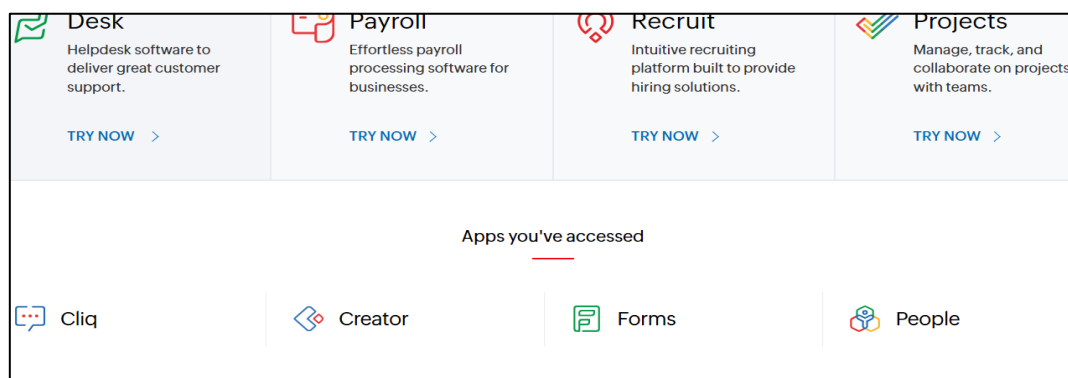

1. Log in to Zoho Creator and click Create New Application.
2. Create a Flight Reservation form.
3. Add fields: From, To, Departure Date, Return Date, Travelers, Class, Fare Type, Flight Type, and Passenger Name.
4. Save the form and create a report to display reservation records.
5. Enter sample data, verify the records, and publish the application.

Implemented:

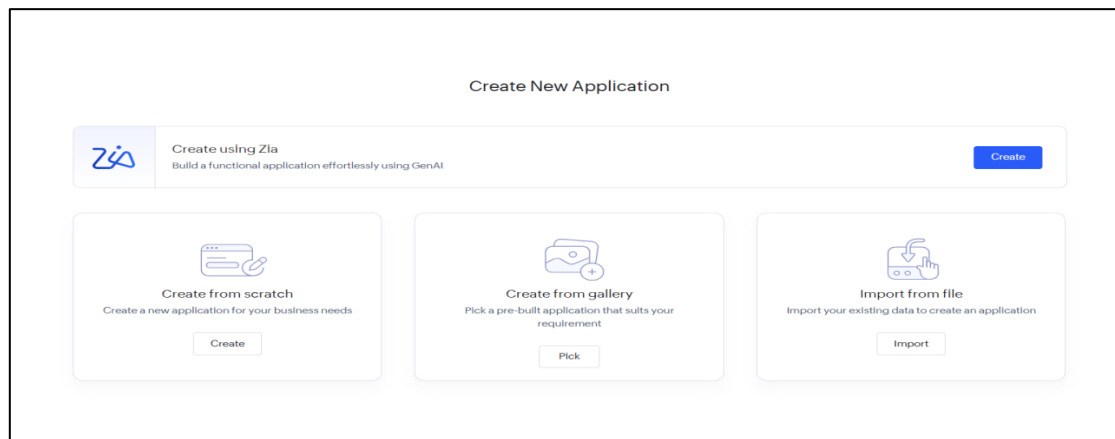

Step 1: Go to zoho.com

STEP 2: Login to your Zoho account and open Zoho Creator

STEP 3: Click Create New Application and select Create from Scratch

STEP 4: Enter Flight Reservation System as the application name and click Create Application.

The screenshot shows the 'Create from scratch' form. It has a title 'Create from scratch' with a plus icon. Below the title, there's a text input field for 'Application Name' with the value 'Flight Booking'. There's a checkbox for 'Enable Environment' and a link 'Learn More'. At the bottom, there's a blue 'Create Application' button.

STEP 5: Create a Flight Booking form and add all required fields

The screenshot shows the 'Flight Reservation System' application interface. On the left, there's a sidebar with a menu: 'Dashboard', 'Bookings', 'Bookings Report', 'Board', 'Payments', 'Flights', 'Passengers', and 'Flight Searches'. The 'Bookings' menu item is highlighted. The main content area is titled 'Bookings' and contains a form with the following fields: 'Passenger' (text input), 'Flight' (dropdown menu), 'Seat Number' (text input), 'Meal Preference' (dropdown menu), 'Payment Status' (dropdown menu), 'Ticket Status' (dropdown menu), 'Booking Date' (text input with a date picker), and 'Ticket Number' (text input). At the bottom, there are 'Submit' and 'Reset' buttons.

EXP NO 2: Property Buying & Rental System

Aim:

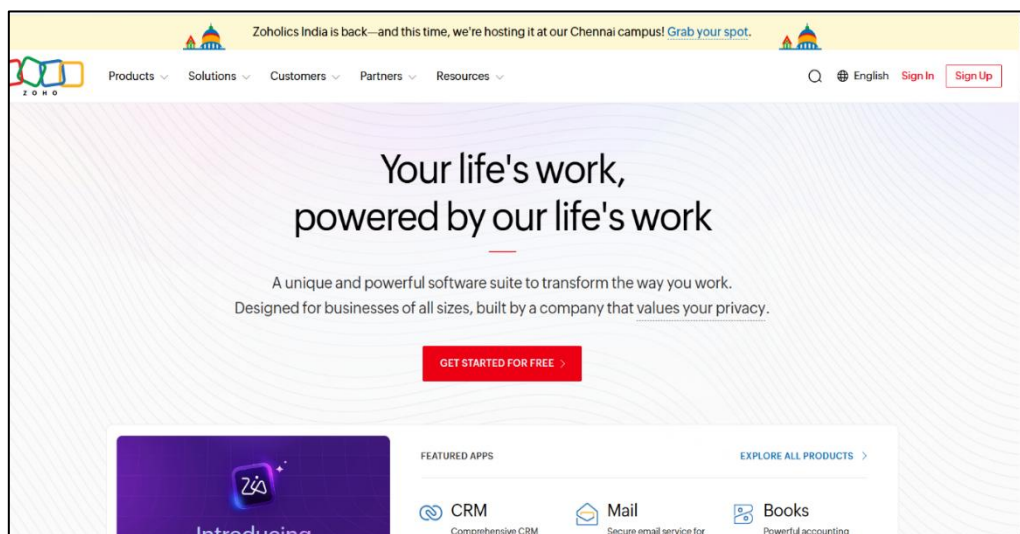

To create a cloud-based Property Buying & Rental System using Zoho Creator.

Steps:

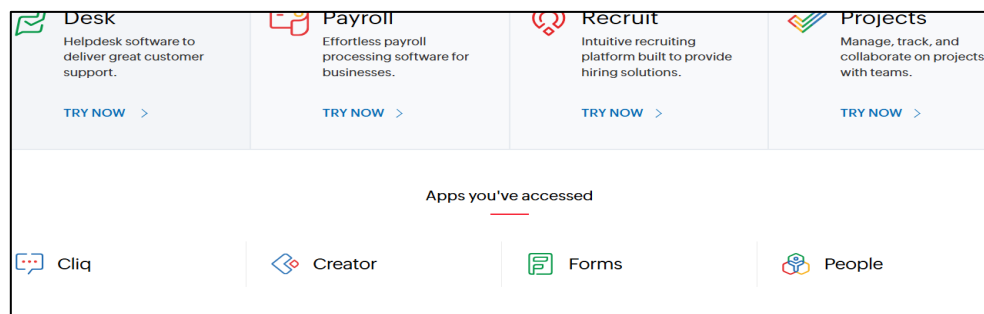

1. Create a new application in Zoho Creator.
2. Create a Property Details form.
3. Add fields: Buy/Rent, Property Type, Area, Location, Price, Rental Agreement, and Owner Details.
4. Create reports to view and search property records.
5. Test the application by entering sample property details.

Implemented

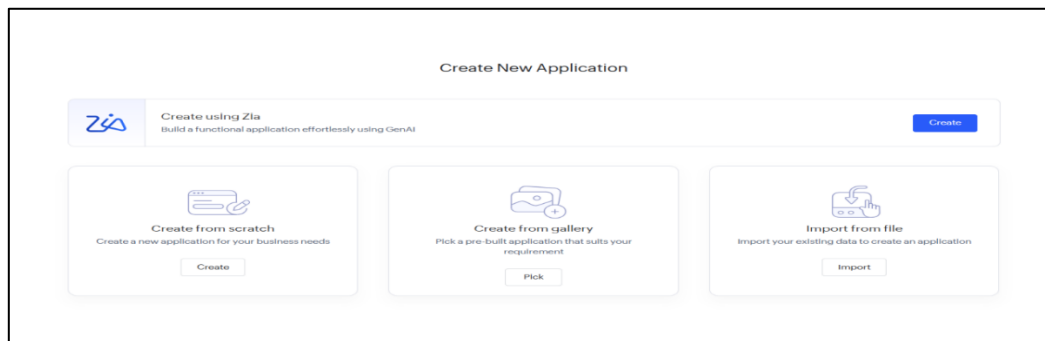

Step 1: Go to zoho.com

STEP 2: Login to your Zoho account and open Zoho Creator

STEP 3: Click Create New Application and select Create from Scratch

STEP 4: Enter Rental System as the application name and click Create Application.

The screenshot shows the 'Create from scratch' form. It has a title 'Create from scratch' with a plus icon. Below it is a text input field for 'Application Name' with the value 'Rental System'. There is a checkbox for 'Enable Environment' with a link 'Learn More'. At the bottom is a blue 'Create Application' button.

Step 5: Add fields: Buy/Rent, Property Type, Area, Location, Price, Rental Agreement, and Owner Details.

The screenshot shows the 'Real Estate Management' application. The left sidebar has a menu with 'Dashboard', 'Rental Agreements', 'Sales Agreements', 'Properties', 'Customers', 'Payment Details', and 'Accounts'. The main area shows the 'Rental Agreements' form with fields for 'Start Date', 'End Date', 'Monthly Rent', 'Security Deposit', 'Property', 'Customer', and 'Account'. The 'Start Date' field is highlighted with a red border. At the bottom are 'Submit' and 'Reset' buttons.

EXP NO 3: Car Booking Reservation System

Aim:

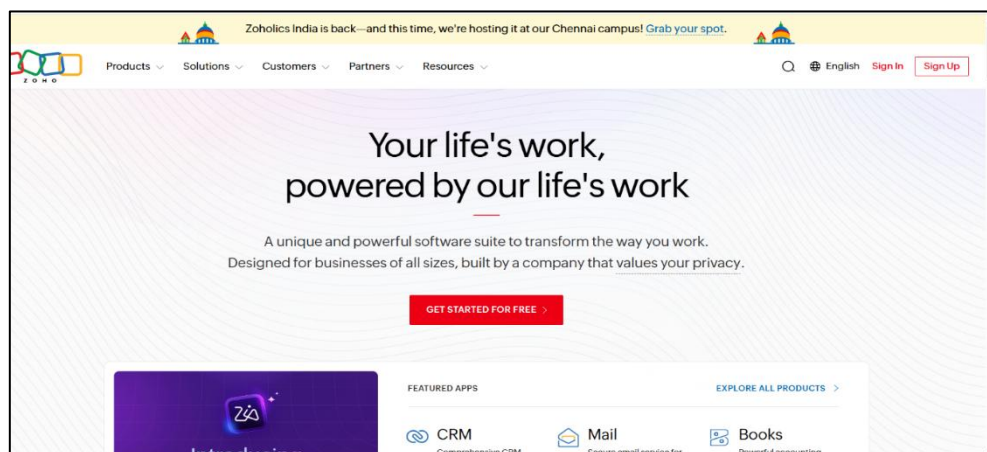

To develop a cloud-based Car Booking Reservation System using Zoho Creator.

Steps:

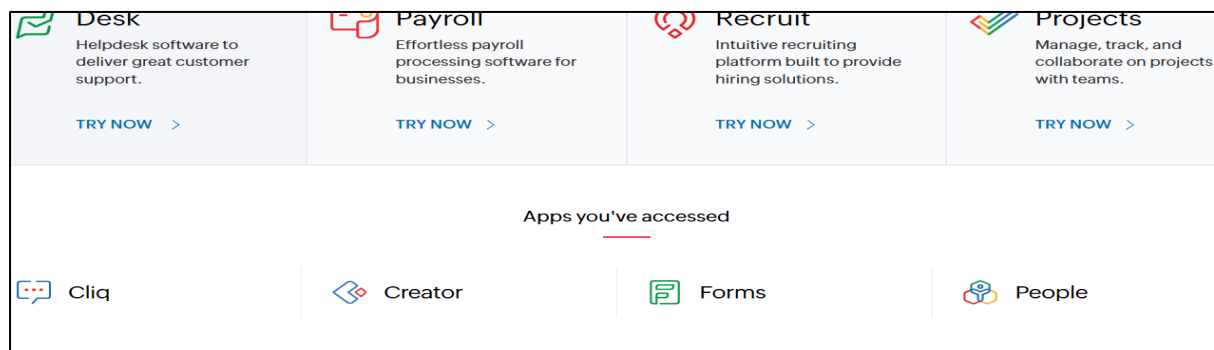

1. Create a new application in Zoho Creator.
2. Create a Car Booking form.
3. Add fields: Customer Name, Pickup Location, Drop Location, Rental/Outstation, Package Type, Date, and Duration.
4. Create reports to display booking details.
5. Enter sample bookings and verify the records.

Implemented

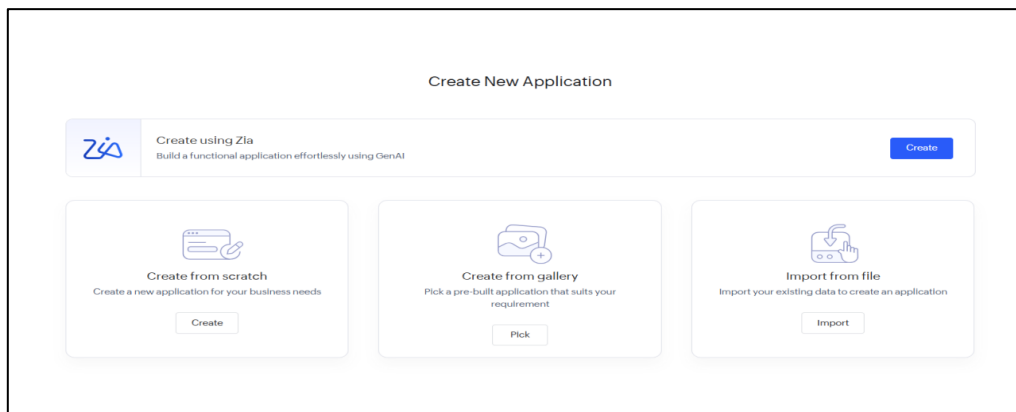

Step 1: Go to zoho.com

STEP 2: Login to your Zoho account and open Zoho Creator

STEP 3: Click Create New Application and select Create from Scratch

STEP 4: Enter Car Booking Reservation as the application name and click Create Application.

The screenshot shows the 'Create from scratch' form. It has a title 'Create from scratch' with a logo above it. Below the title, there's a text input field for 'Application Name' with the value 'Car Booking Reservation'. There's a checkbox for 'Enable Environment' with a 'Learn More' link. At the bottom, there's a large blue button labeled 'Create Application'.

Step 5: Add fields: Customer Name, Pickup Location, Drop Location, Rental/Outstation, Package Type, Date, and Duration.

The screenshot shows the 'Car Booking Management' application interface. On the left is a dark sidebar with a menu containing 'Dashboard', 'Bookings', 'Bookings Report', 'Board', 'Driver Assignments', 'Vehicle Availability', 'Drivers', 'Payments', 'Vehicles', and 'Fare Calculations'. The 'Bookings' menu item is highlighted. The main content area is titled 'Bookings' and contains a form with the following fields: 'Customer' (text input), 'Driver' (dropdown menu), 'Vehicle' (dropdown menu), 'Pickup Location' (text input), 'Drop Location' (text input), 'Pickup Date Time' (datetime input), 'Drop Date Time' (datetime input), 'Distance KM' (text input), 'Estimated Fare' (text input), and 'Booking Status' (dropdown menu).

Step 7:

EXP NO 4: Library Book Reservation System

Aim:

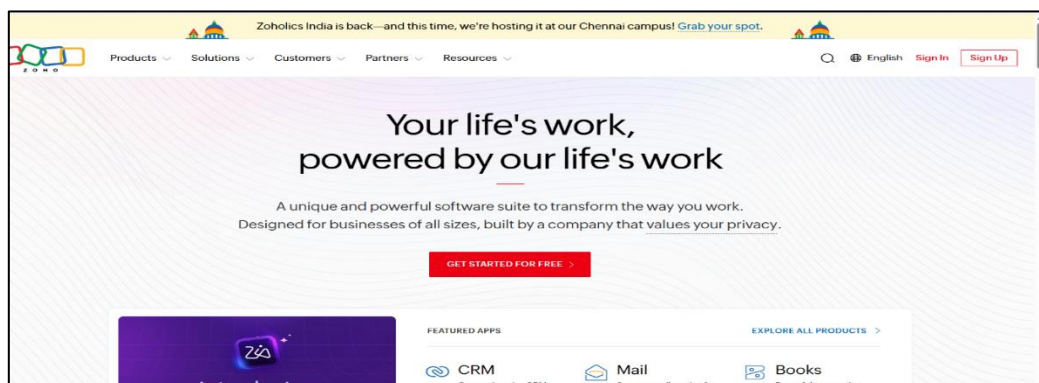

To create a cloud-based Library Book Reservation System using Zoho Creator.

Steps:

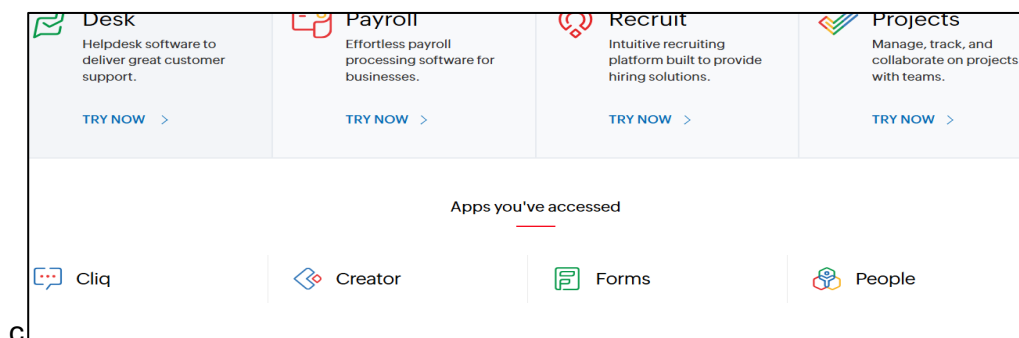

1. Create a new application.
2. Create a Book Reservation form.
3. Add fields: Book Title, Author, Publication, Edition, Rack Number, Number of Copies, and Status.
4. Create a report to display available and reserved books.
5. Test the application with sample book records.

Implemented

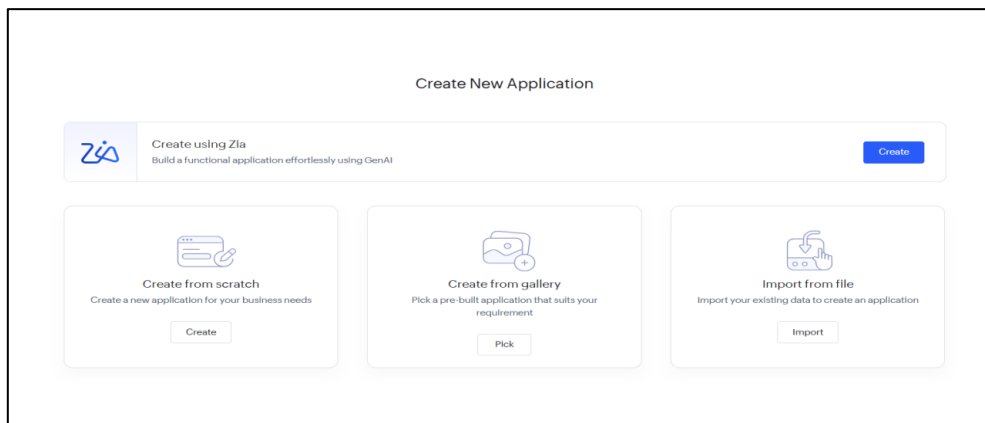

Step 1: Go to zoho.com

STEP 2: Login to your Zoho account and open Zoho Creator

STEP 3: Click Create New Application and select Create from Scratch

STEP 4: Enter Library Book Reservation System as the application name and click Create Application.

The screenshot shows the 'Create from scratch' form. It has a title 'Create from scratch' with a logo above it. Below the title, there's a form with a label 'Application Name *' and a text input field containing 'Library Book Reservation System'. There's also a checkbox labeled 'Enable Environment' with a link 'Learn More'. At the bottom, there's a large blue button labeled 'Create Application'.

Step 5: Add fields: Book Title, Author, Publication, Edition, Rack Number, Number of Copies, and Status

The screenshot shows the 'Library Management System' interface. On the left, there's a sidebar with a menu: 'Dashboard', 'Issue Records' (with a dropdown arrow), '+ Issue Records' (highlighted in orange), 'Issue Records Rep...', 'Board', 'Borrowing History' (with a right arrow), 'Books' (with a right arrow), 'Students' (with a right arrow), 'Return Records' (with a right arrow), 'Dashboard Metrics' (with a right arrow), and 'Items' (with a right arrow). The main area is titled 'Issue Records' and contains a form with the following fields: 'Student' (text input), 'Book' (dropdown menu with '-Select-'), 'Issue Date' (text input with 'dd-MMM-yyyy' placeholder), 'Return Date' (text input with 'dd-MMM-yyyy' placeholder), 'Due Date' (text input with 'dd-MMM-yyyy' placeholder), 'Status' (dropdown menu with '-Select-'), 'Fine Amount' (text input with '#####.##' placeholder), and 'Returned By' (text input). At the bottom, there are two buttons: 'Submit' (orange) and 'Reset' (white).

EXP NO 5: Mark Sheet Processing System

Aim:

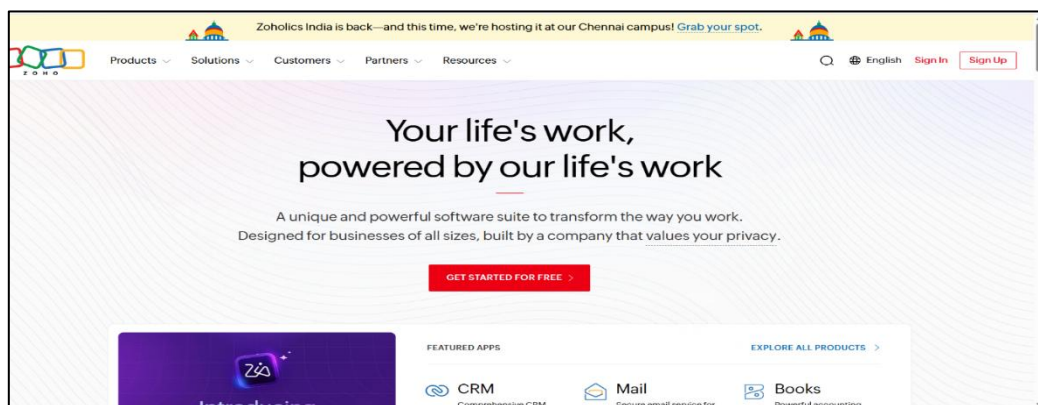

To develop a cloud-based Mark Sheet Processing System using Zoho Creator.

Steps:

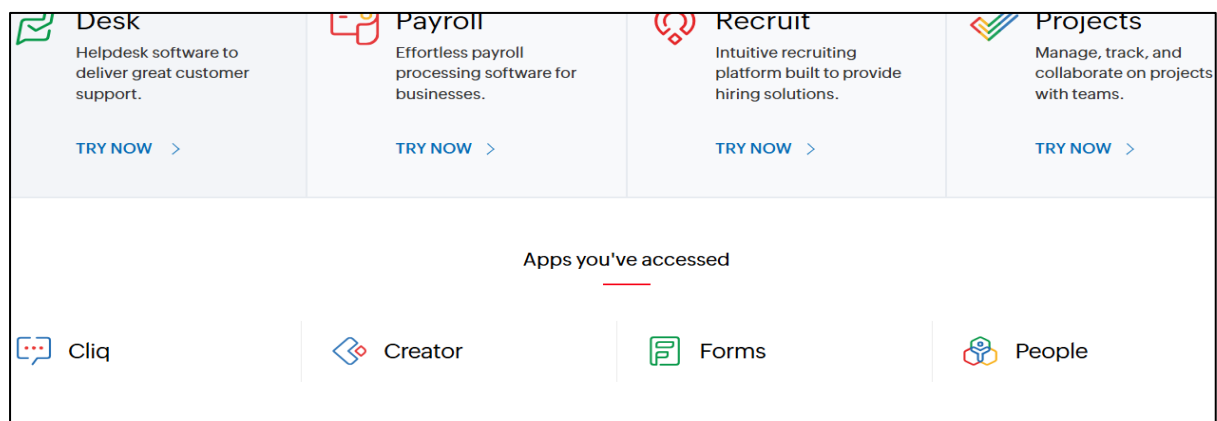

1. Create a new application.
2. Create a Student Mark Sheet form.
3. Add fields: Student Name, Register Number, Subject Marks, Total, Average, Percentage, and Rank.
4. Use formulas to calculate Total, Average, and Percentage.
5. Save the records and verify the generated mark sheet.

Implemented

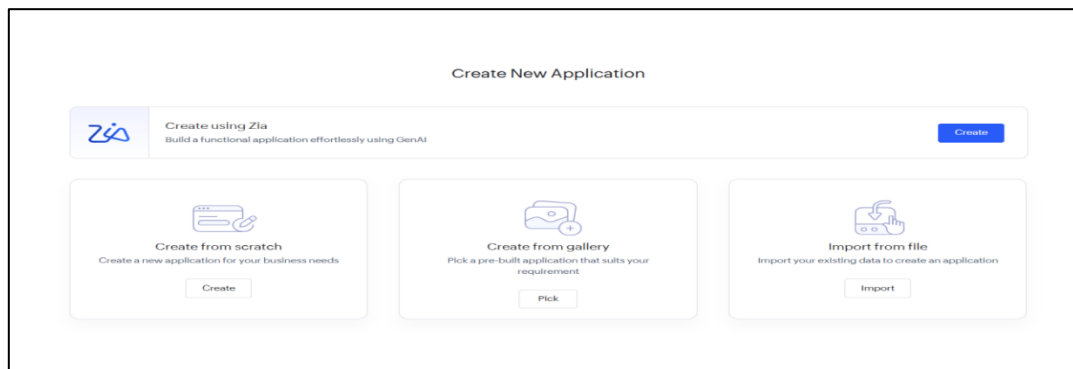

Step 1: Go to zoho.com

STEP 2: Login to your Zoho account and open Zoho Creator

STEP 3: Click Create New Application and select Create from Scratch

STEP 4: Enter Mark Sheet Processing System as the application name and click Create Application.

The screenshot shows the 'Create from scratch' form. At the top, there's a header 'Create from scratch'. Below it, there's a text input field for 'Application Name' with a red asterisk indicating it's required. The input field contains the text ': Mark Sheet Processing System'. Below the input field, there's a checkbox for 'Enable Environment' and a 'Learn More' link. At the bottom, there's a large blue button labeled 'Create Application'.

Step 5: Add fields: Student Name, Register Number, Subject Marks, Total, Average, Percentage, and Rank.

The screenshot shows the 'Student Mark Processing' application interface. On the left, there's a sidebar with navigation options: Dashboard, Marks, Marks Report, Results, Analytics, Subjects, Reports, and Students. The main area is titled 'Marks' and contains a form with fields for Student, Subject, Exam Date, Marks Obtained, and Total Marks. There are 'Submit' and 'Reset' buttons at the bottom. The 'Marks' option in the sidebar is highlighted.

EXP NO 6: Payroll Processing System

Aim:

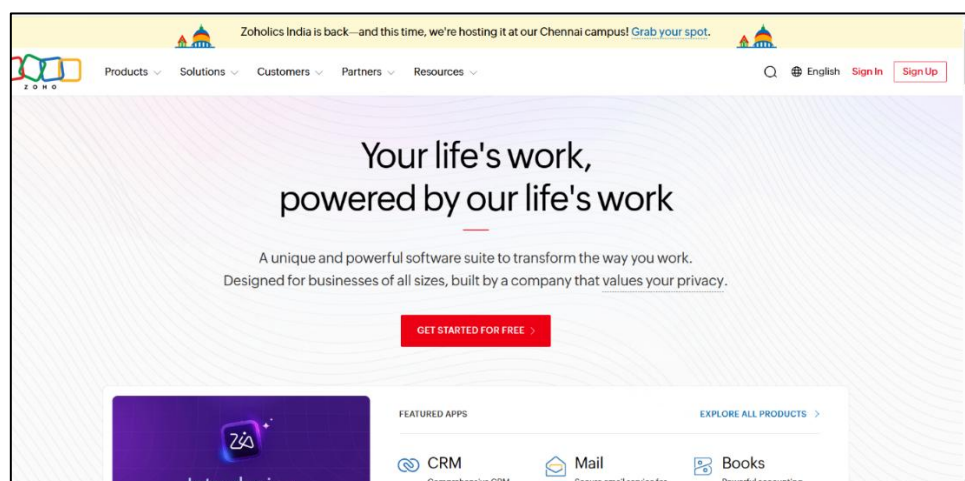

To create a cloud-based Payroll Processing System using Zoho Creator.

Steps:

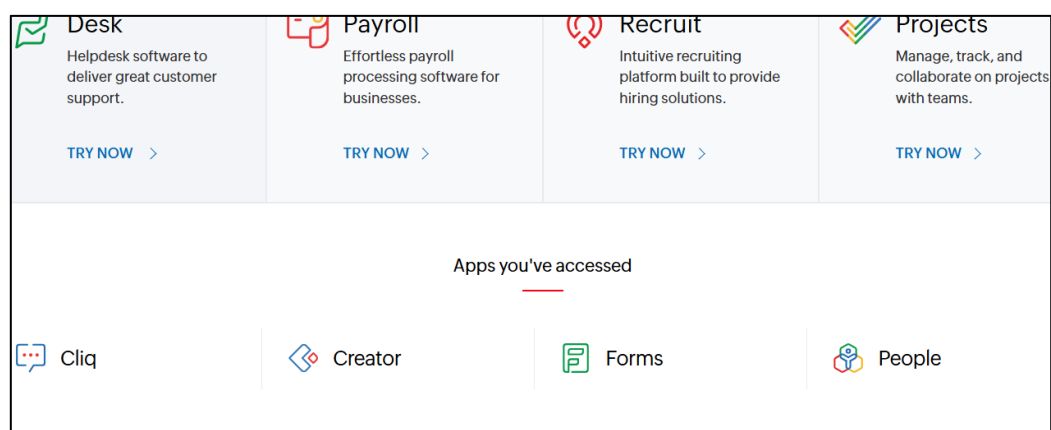

1. Create a new application.
2. Create an Employee Payroll form.
3. Add fields: Employee Name, Experience, Basic Pay, HRA, DA, TA, Gross Pay, and Net Pay.
4. Use formulas to calculate Gross Pay and Net Pay.
5. Save employee details and verify the payroll report.

Implemented:

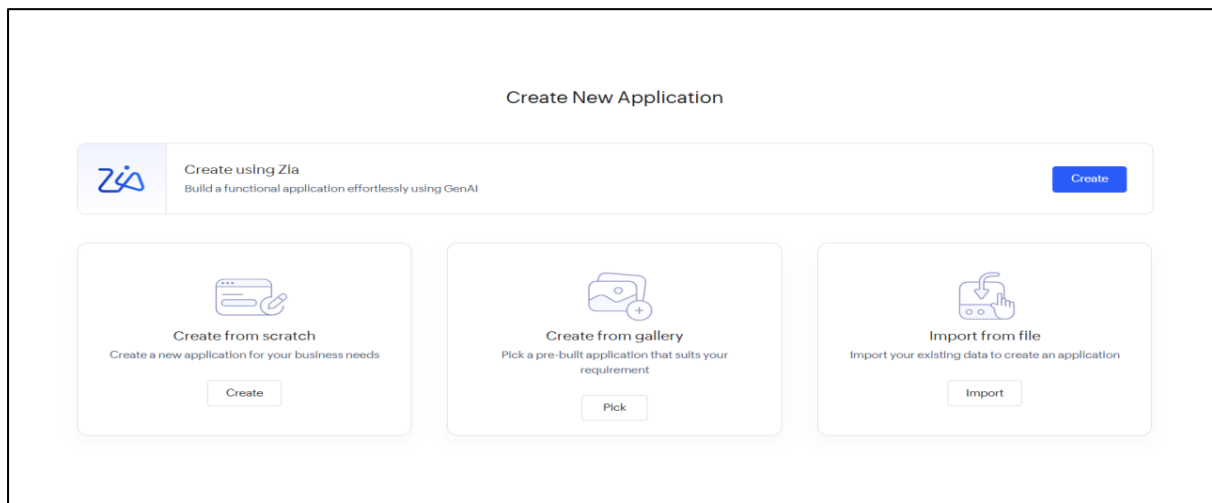

Step 1: Go to zoho.com

STEP 2: Login to your Zoho account and open Zoho Creator

STEP 3: Click Create New Application and select Create from Scratch

STEP 4: Enter Payroll Processing System as the application name and click Create Application.

The screenshot shows the 'Create from scratch' form. It has a title 'Create from scratch' with a plus icon. Below the title, there's a form with the following fields: 'Application Name' (with a red asterisk) containing 'Payroll Processing System', 'Enable Environment' (unchecked checkbox), and 'Learn More' (link). At the bottom, there's a large blue 'Create Application' button.

Step 5: Add fields: Student Name, Register Number, Subject Marks, Total, Average, Percentage, and Rank.

The screenshot shows the 'Payroll Management System' interface. On the left, there's a sidebar with a menu: 'Dashboard', 'Employees' (selected), 'Employees Report', 'Board', 'Attendance Recor...', 'Employee Salary', 'Department Sum...', 'Payroll Calculatio...', 'Salary Slips', and 'Payroll History'. The main area is titled 'Employees' and contains a form with the following fields: 'Employee ID' (dropdown menu), 'First Name' (text input), 'Last Name' (text input), 'Date of Joining' (date input), 'Date of Birth' (date input), 'Gender' (dropdown menu), 'Employment Type' (dropdown menu), 'Department' (dropdown menu), 'Designation' (dropdown menu), and 'Email Address' (text input). At the top right, there's a 'Trial expires in' indicator.

Step 7:Final Dashboard

EXP NO 7: Student Attendance System

Aim:

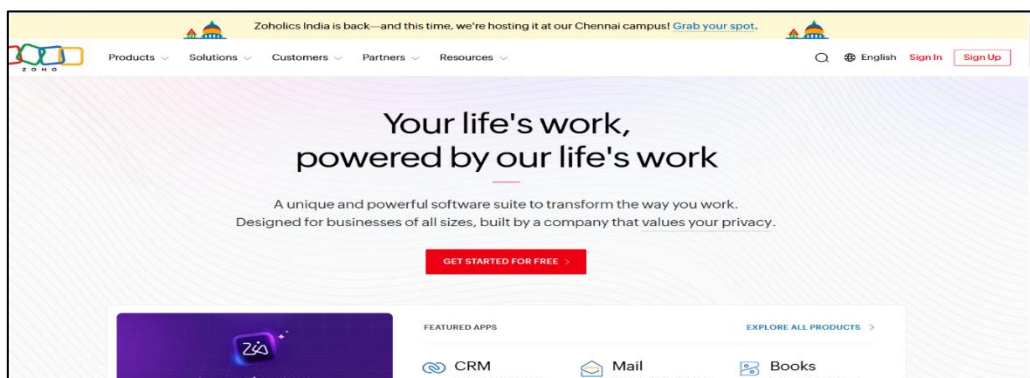

To develop a cloud-based Student Attendance System using Zoho Creator.

Steps:

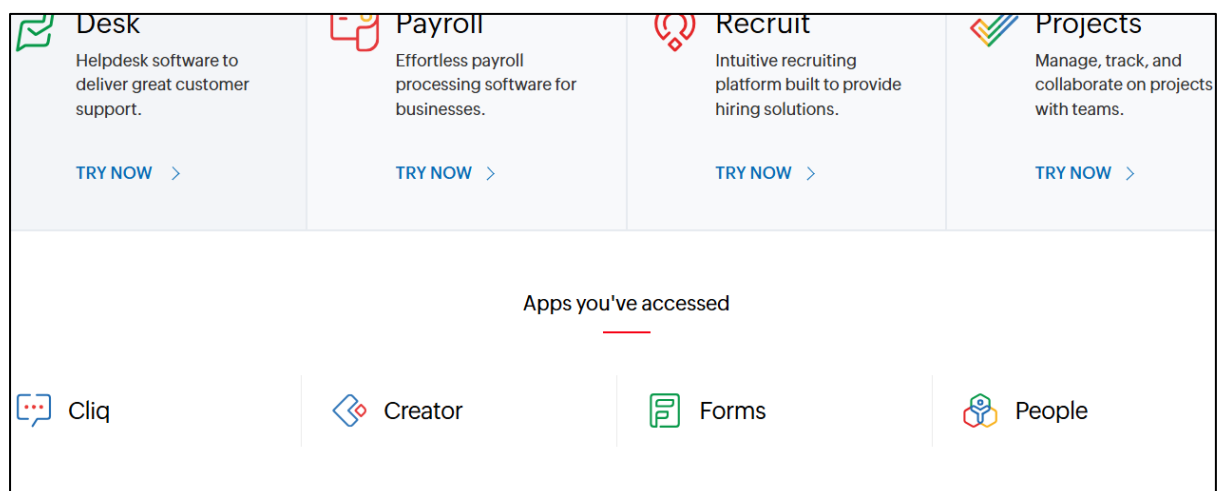

1. Create a new application.
2. Create a Student Attendance form.
3. Add fields: Student Name, Course, Date, Present/Absent, Attendance Percentage, and OD Request.
4. Create reports to display attendance records.
5. Test the application by entering attendance details.

Implemented:

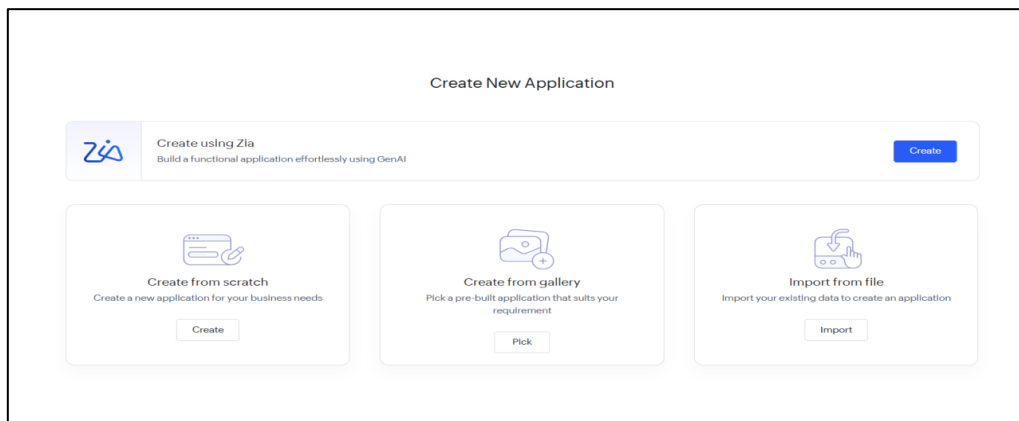

Step 1: Go to zoho.com

STEP 2: Login to your Zoho account and open Zoho Creator

STEP 3: Click Create New Application and select Create from Scratch

STEP 4: Enter Student Attendance System as the application name and click Create Application.

Step 5: Add fields: Student Name, Course, Date, Present/Absent, Attendance Percentage, and OD Request.

Step 7: Final Dash board

EXP NO 8: Hospital Management

Aim:

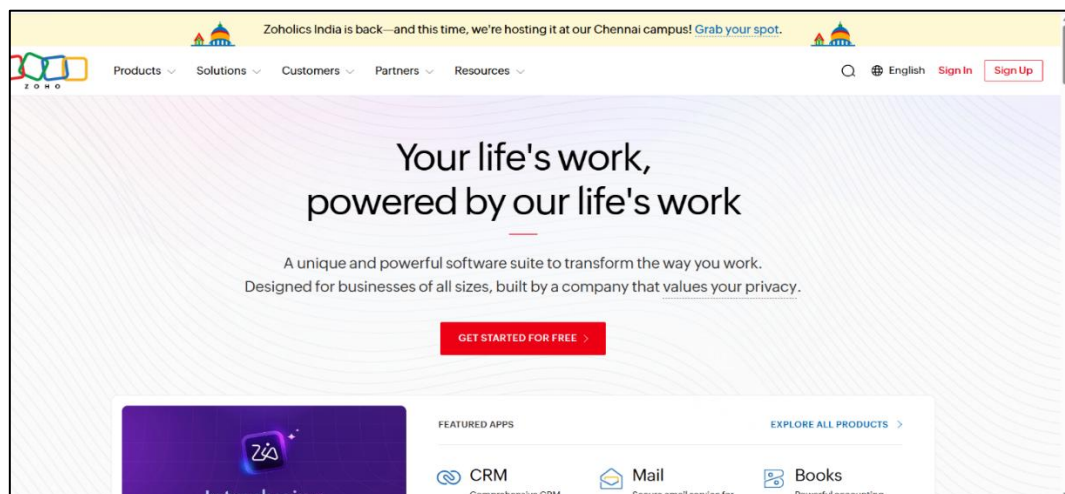

To develop a cloud-based Hospital Management using Zoho Creator.

Steps:

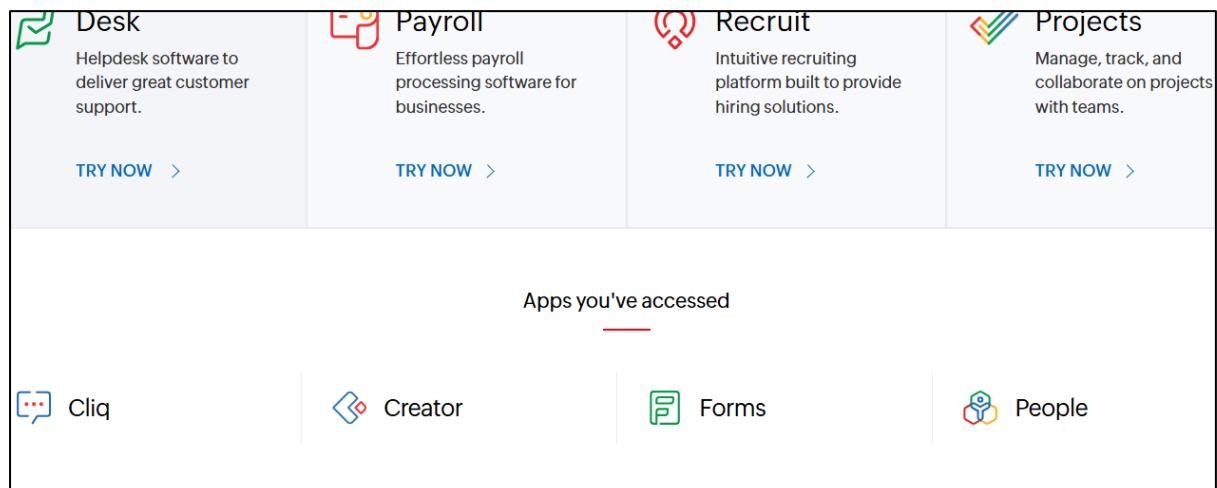

1. Create a new application.
2. Create a Hospital Management System
3. Add fields: Appointment Billing ,Patient ,Doctor
4. Create reports to display all above details
5. Test the application by entering attendance details.

Implemented:

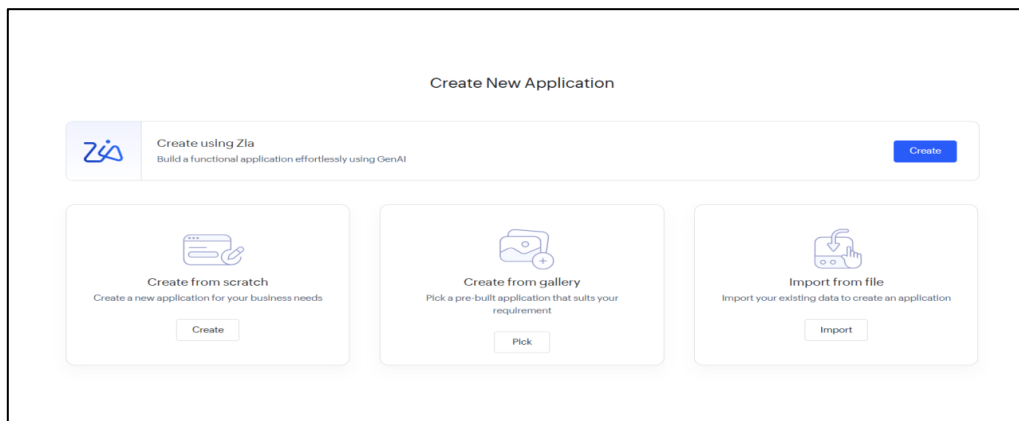

Step 1: Go to zoho.com

STEP 2: Login to your Zoho account and open Zoho Creator

STEP 3: Click Create New Application and select Create from Scratch

STEP 4: Enter Hospital Management as the application name and click Create Application.

The screenshot shows the 'Create from scratch' form. It has a title 'Create from scratch' with a red box around it. Below the title, there's a form with the following fields: 'Application Name' (with a red asterisk) containing 'Hospital Management', 'Enable Environment' (unchecked), and a 'Create Application' button.

Step 5: Add fields

The screenshot shows the 'Appointment' form in the 'Hospital Information Management' application. The form has a sidebar with navigation links: Dashboard, Appointment, Appointment Report, Board, Billing, Patient, Doctor, and Treatment. The 'Appointment' link is highlighted. The main form has the following fields: Patient (text input), Doctor (dropdown menu), Date (text input with format dd-MMM-yyyy), Time (text input with format HH:mm:ss), Disease (text input), Diagnosis (text input), Prescription (text input), and Status (dropdown menu).
