Reg. No.: 192324035

Course Code: CSA1522

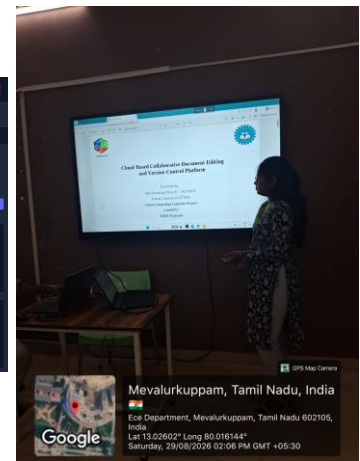

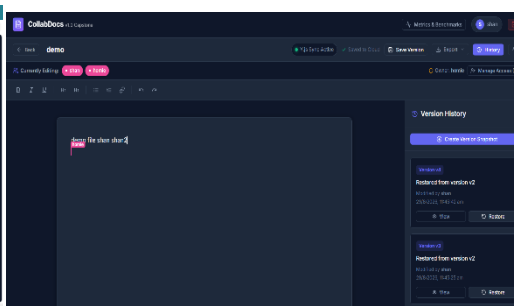

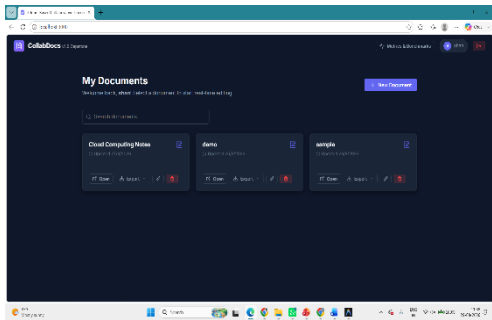

Slot: C

Course Name: Cloud Computing and Big Data Analytics

Course Faculty: Dr Rajaram P

Project Title: Cloud-Based Collaborative Document Editing and Version Control Platform

Module Photographs: (3 photographs –Module Photo, Individual student contribution module work in the project and presentation image)

Project Description: (here you write what you did in this project (contribution) including Model Description)

Project Description

Developed a real-time collaborative document editor using React, Tiptap, Y.js CRDT, and WebSockets. Multiple users can edit the same document simultaneously, with changes synchronized in real time and conflicts automatically resolved using CRDT.

Module 1: Real-Time Collaborative Editing Engine

Y.js CRDT maintains synchronized document states, while WebSockets transmit changes between connected users.

My Contribution: Implemented the editor, real-time synchronization, collaborator presence/cursors, and concurrent editing functionality.
